

3d. Annual Masonic Field Day
Thursday, Aug. 30, 1906.
Macedon Lodge No.
665, F. & A. M.

LAPHAM PLACE

MACEDON, N. Y.

Brother Masons:

We greet you in Macedon our home since 1842--when Lyman Bickford and Henry Huffman made the first grain drill ever manufactured in the United States. When you stop to think that 125,000 2-horse grain drills were manufactured in the United States last year you can appreciate what an important place in the history of agricultural mechanics the names of Macedon and Bickford & Huffman deserve.

We were FIRST in 1842. We are BEST to-day. Never mind what the little disappointed fellows say. Drills are not built by tricks or meanness! The principles of Masonry are the foundations and key stone of our business and our machine. If you or your friends are users of grain drills call on us.

We'll meet you and treat you on the square.

Furniture and Undertaking

We are about to add another large floor to our store which will make us double the space to show our goods. We will open up the fall trade with a full line of goods, at prices that are right.

We have a practical man to do our upholstering and can please you on this work.

Try one of our \$6.50 Mattresses—they are the best on the market for the money—Felts at \$9.50 and \$12.00

The balance of Porch Furniture at reduced prices to make room for other goods.

Our prices are appreciated we know by our steady increase in trade—Give us a call, we will use you right in every detail.

Crate Your Apples

To the Farmers and Fruit Growers:

If you are looking for the largest profit consistent with the least amount of labor in your apple crop, we have a proposition that should be of interest to you.

We have on hand and in the course of construction 40,000 crates for your use, and with more improved facilities, we are now able to handle an unlimited quantity of apples.

Experience has taught us that ours is the most satisfactory way of handling fruit and with all conditions considered the most profitable for the farmer.

We want apples of any variety grade and quantity.
